Weekly Report for Week Ending 03/08/2013
IBM - OpenStack

Justin Anderson, John Nagel, Cesar Ramirez, John Rensberger

Status Summary

This week we concentrated our efforts on the midterm status update. Over the weekend we put forth a large amount of effort to install OpenStack using Devstack. We also completed the related paperwork including our presentation, the postmortem document, sprint report, and we updated the project plan. We've also started to test installations of the Grizzly release of OpenStack.

Top Highlights

- Completed our midterm status update.
- Gave a good midterm presentation.
- Completed class Sprint 2 documentation.
- Started installation of OpenStack with Grizzly.

Top Lowlights

- Found out many issues with Devstack, will need to scrap most of our work and start over with Grizzly. Though we agree that it's good this happened before spring break.
